(This Trademark approval is valid for a period of 5 years from the date of issue).

The tested article F2511 GAND with application no. 151218 is granted approval for the trademark Trevira CS.

This article has been tested according to DIN 4102 part 1 and qualifies for class B1.

This article can meet the requirements for class M1 according to the French standard NF P 92-503-507.

This article qualifies for class B-s1, d0 according to the European Standard EN 13501-1. Trevira CS has been approved by the DIBt with the General Building Inspectorate Approval, Approval No. Z-56.25-3573 dd. 2 May 2013.

This article meets the requirements according to EN 1021 part 1+2 in conjunction with polyurethan foams with a density of more than 30 kg/m³.

Thus meets also the requirements according to British Standard BS 5852: ignition source 0 (cigarette), ignition source 1 (match) and ignition source 5 (crib 5) in conjunction with suitable combustion modified foams (at least 50 kg/m³).

Thus meets also the requirements for class 1 according to the Italian Standards UNI VF 8456 and UNI VF 8457.

Thus meets also the requirements according to the Italian standard UNI VF 9175, class 1 IM in conjunction with suitable combustion modified foams.

This article also meets the requirements according to the North American standard NFPA 701: 2010 Test Method #1 (based on the Test Reports Govmark, New York No. 2-94779, 2-94780, 2-94781).

This article also meets the requirements for class I according to the North American standard NFPA 260 for upholstered furniture (based on the Test Reports no. 10-002-775 A + B dated 24.11.2010).

This article can meet the requirements according to California TB 117, section E, class 1.

This article can meet the requirements according to California TB 133.

Trevira CS fabrics also meet the requirements according to the North American NFPA Life Safety Code 101, class A, Test Standard ASTM E84 Surface Burning Characteristics, Test Report No. 12-002-527, dated August 30, 2012.
