

## **B7659001 COULONGES**

This embroidery is a reinterpretation of a canvas printed in France with the block printing technique in the last quarter of the 18th century. Inspired by floral indiennes, the original document is preserved in the company's archives. This delicate design of palm trees and flowers is finely embroidered on a magnificent linen twill. Also available in a semi-coordinated version, COULONGES CONTREFOND B7660, as well as a wall covering.
