

# F3107001 PAQUEBOT

Characteristic of the Art Deco style, this pattern made from facets and circles is screen printed on velvet. The printing technique is mixed and innovative. The velvet nap is both colored and "embossed" to create a material effect that plays on reliefs and textures. The richness of this fabric thus resides in the contrast between a soft, spongy velvet material and the printing of embossed, iridescent, nacreous, patinaed and metal motifs.
