

F3462001 BEAU MONDE I

On a background of sophisticated linen, majestic characters dressed for a parade are embroidered life-size at 1.7 m. In a totally original way, they are presented in groups of three and come on two different panels measuring 3 meters tall. Taken from a work composed by Noëmie Vallerand using a technique of collage and painting, the set of silhouettes designed by the artist is available in a wallpaper version under reference FP573.
