

F3483003 CORAIL

This high-performance fabric is developed and woven in the Pierre Frey workshops in the north of France. It offers the best performance for in/outdoor use: stain resistance thanks to a water-repellent treatment with a textile feel and high lightfastness. The pocket weave of this jacquard allows for contrasting colors and double-sided use in positive and negative indoors or outdoors. The pattern of intertwined coral branches is inspired by a 19th century French ornament book.
