

## F3543014 ARLES

A high-performance fabric, ARLES offers exceptional in/outdoor properties: stain resistance and high lightfastness. Using an expertise that is unique in Europe, the Pierre Frey workshops in northern France have developed a formula that is unmatched within the market: combining a natural linen weave with highly resistant color pigments and water-repellent properties. Continuing the tradition of dyed woven fabrics, it presents an original, fresh and joyful multicolored braid. This design is available in an elegant and timeless coloring for inside or outside.
