

FJIMMTA160LB JIMMY

Guillaume Delvigne presents the new JIMMY collection for Maison Pierre Frey, a series of coffee tables and pedestal tables that embody contemporary refinement with essential, generous shapes. Each piece is highly functional and simultaneously a sculptural object that enlivens any space. The "T" shaped bases draw inspiration from the tribal art so beloved by the designer, while the smooth, curved tabletops reveal their elegance through dynamic light and perspective play. Available in three distinct materials with singular textures, the JIMMY collection offers a wide array of customizable material and finish combinations to enrich its design. The wooden version is crafted in oak, highlighting the striking and authentic grain of this noble, refined material. The lacquered versions open the door to endless creative possibilities, with lacquered structures pairing beautifully with either full lacquer tabletops in an extensive palette of shades or flush-mounted glass tabletops that are durable and easy to maintain. For a more sophisticated aesthetic, lacquered structures can be complemented with overhanging inserts in artistic lacquers featuring creative patterns (Kozo, Empreinte, or Glacée lacquers) or with gouged oak inserts that establish a dialogue between textures. The ceramic version is artisanal and made in France, offering pedestal tables suitable for both indoor and outdoor use. Pierre Frey Mobilier and Guillaume Delvigne have collaborated on crackled glazed stoneware, with deep, natural, and timeless hues and soft, irregular nuances. Each piece is handcrafted, making it a truly unique and exclusive work of art. This collection balances function and artistry, offering versatile, sculptural pieces that enhance and transform any interior or exterior space.
