

BP350001 VOILE DE GENES

Panel depicting a tree-of-life design on a flowering mound populated by three animals: a giraffe, a deer and a lion. The original voile de Gênes, preserved in the Maison's archives, was printed with the block printing technique on a fine cotton canvas in the 19th century. It is modernized here with verdigris colors inspired by greenery and printed on a laminated linen voile. Connectable panoramic wallpaper.
